Sheakley Rolls Out NEW Online Safety Store - Equip

Online store allows safety personnel easy access to purchase high quality safety equipment & supplies

Cincinnati, OH (August 29, 2011)— As part of its continued expansion of safety services, Sheakley, one of Ohio's largest workers' compensation third party administrators, announced today the rollout of its new online safety product store- Equip. This comprehensive online store will allow its customers to choose from an extensive variety of high quality safety merchandise and apparel products, ranging from personal protective equipment to janitorial and first aid supplies. As an introductory offer, Equip will offer a 10% discount for all first time orders.

Trusted as experts in claims and injury management and a national provider of safety training and consultative services, Sheakley understands that protecting employees from workplace hazards is the best solution for preventing injuries and reducing workers' compensation costs.

"Our commitment to helping our customers save time and money as well as creating safe and injury free workplaces makes the introduction of Equip a natural extension of our suite of existing cost control services," said Matt Sheakley, President.

A unique feature of Equip is the ability to provide customers with a customized version web store that is designed specifically to meet their purchasing needs. This customized store is ideal for shoppers who buy large amounts of supplies and merchandise from multiple vendors and is looking to simplify that process and reduce costs. With its "one-stop-shop" Equip allows the buyer the option to pre-select the competitively priced merchandise they want to purchase on an ongoing basis and have it all available in one easy to use website. Equip is also the perfect solution for employers with multiple locations, who want to achieve better control of the quality, quantity and price of the supplies and merchandise purchased by these locations.

"With Sheakley Equip's customizable website, I can allow my worksite supervisors to purchase what they need for a job while also having the ability to monitor the quantity purchased and maintain consistency in the price and quality of the items they're buying. Equip was able to meet or beat most of my current vendors pricing and now I only have one invoice. Plus, it's great that I can call Sheakley's safety team if I have a question about a product or supply that I need," said Jeff Spradling, Owner, Precision Industrial Piping.

As with all Sheakley services, Equip will have customer service consultants available to answer any questions, assist customers and offer any guidance or training necessary to help improve the shopping experience. To learn more about Equip visit www.sheakleyequip.com.
