Sheakley UniComp #1 among 5 largest Managed Care Organizations in Ohio BWC latest return to work statistics

CINCINNATI, OH - May 5, 2008 - Sheakley UniComp, Inc. announced today it has received information from the Ohio Bureau of Workers' Compensation (BWC) that UniComp is first among the five largest Managed Care Organizations (MCOs) in Ohio (based on premium) for the Bureau's Return to Work Measurement (DoDM) for the 4th Quarter 2007. The BWC distributes the report quarterly to all MCOs in the State identifying their performance measurements and will publish this in the BWC Report Card for the upcoming Ohio MCO Open Enrollment May 5 - 30. Nearly 48,000 employers are currently medically managed by Sheakley UniComp.

"We are very excited to have received this terrific news," said John Dumas, Vice President of Sheakley UniComp. "We work very hard for our employers and injured workers and this measurement confirms our efforts."

The DoDM measurement, established by the BWC, is one of the most critical areas of measurement to monitor an MCO's effectiveness. Facilitating an injured worker's timely return to work is a key factor in controlling employer's workers' compensation costs. With Ohio MCO Workers' Comp Open Enrollment quickly approaching, Ohio employers will be looking for MCOs that have been highly successful in this measurement.

As one of the first MCOs certified by the Ohio BWC, Sheakley UniComp, has been in operation since March 1997. An affiliate of The Sheakley Group of Companies, Sheakley UniComp is an Ohio Workers' Compensation Managed Care Organization dedicated to providing quality, cost effective medical care which will facilitate a safe and timely return to work. Sheakley UniComp is one of the largest MCOs for workers' comp in the state of Ohio. The program promotes proper and continuous communication between the injured worker, the employer, the provider, and the Ohio BWC making the medical management of Workers' Comp claims easier for all parties involved.

- Founded in 1963, Sheakley provides an integrated suite of business process outsourcing solutions for human resource, payroll and healthcare professionals for small to mid-sized employers. Headquartered in Cincinnati, Ohio and named one of the fast growing private companies in Greater Cincinnati, Sheakley specializes in cost control for mandated and voluntary employee benefit programs as well as numerous human resource cost containment areas.
