Plettner-Hart Management Consultants (a Sheakley company) Joins Forces with Allscripts In a New Reseller Relationship

Cincinnati, OH October 18, 2007, — Sheakley announced today a business reseller partnership between one of its business units, Plettner-Hart Management Consultants, which offers centralized billing and accounts receivable management services to physicians and Allscripts, the leading provider of clinical software, connectivity and information solutions that physicians use to improve healthcare.

Allscripts HealthMatics® Electronic Health Record (EHR) solution was ranked No. 1 in its market category by KLAS Enterprises, LLC, in the prestigious research group's Top 20: Mid-Year 2007 Report. In that same report, the HealthMatics EHR was also the only product in its market category for which 100 percent of customers responded they would buy the product again and would recommend it to a peer.

Sheakley's Plettner-Hart Management Consultants is one of four Allscripts Value Added Resellers (VAR) in the nation. Sheakley and Allscripts will work together to achieve the two fold objective of providing leading edge systems technology for Sheakley's established medical billing and consulting business and increasing the market penetration of HealthMatics Enterprise and EHR in physician practices.

Shari Herper, Sr. Vice President of Sheakley, said, "The combination of Plettner-Hart's expertise in practice management consulting and Allscripts' No.1 information solutions positions us to offer a first class solution for our Practice Management clients. This agreement expands our presence in the Greater Cincinnati marketplace and into our neighboring states."
