## THE BURIED TRUTH UNCOVERED

Hear this workplace near death story of Eric Giguere and learn why SAFETY is so important to YOU!

*Eric is an average guy* who had the typical attitude toward safety; "Accidents happen, but not to me". Until the one that nearly took his life. Now Eric's mission in life is to make sure the arrogance he had toward safety doesn't become yours. His message is simple and serious, "*This can happen to you.*"

*Eric's low-key dynamic speaking ability captivates his audiences* and proves to be a valuable tool for companies with a need for more safety awareness. His unique circumstances and the ability to relate to those around him drive home the need for safety in the workplace. A work-related accident changed his life, as well as his personal commitment to safety awareness.

*Eric will drive home the need for safety awareness with his powerful life changing story!*

## Workers' Compensation Seminars

This event is brought to you at NO COST by the Southwest Ohio Chapter of The American Society of Safety Engineers (ASSE)

*"My speaking engagements prove a valuable tool for companies with a need for safety awareness. My unique circumstances and ability to relate to those around me are only a few of the items that allow me to captivate an audience and drive home the need for safety in the workplace."*

Eric easily relates with the average "working man" and tells audiences his personal story from the heart.
