Sheakley UniComp would like to take this opportunity to thank you for selecting us as your preferred partner for Workers' Comp Managed Care. Through your committed efforts Sheakley UniComp has been fortunate to work closely with your injured workers and provider community to coordinate their safe, effective return to work.

Return to Work (DoDM) is one of the most important issues in the world of MCOs. Sheakley UniComp has exceeded the BWC's highest targeted benchmark every quarter (including the recent 4th quarter of 2007¹), since the Ohio Bureau of Workers' Compensation (BWC) began this type of measurement.

Sheakley UniComp is also leading all other MCOs in reporting initial injuries to the BWC². This measure is commonly referred to as FROI (First Report of Injury) Turnaround. Quicker response to injuries saves time and time saved helps prevent claims from becoming lost time. According to the Ohio BWC, the 2007 average lost time claim was \$56,865.³

Nearly 48,000 Ohio Employers have "Caught the Sheakley Difference". Our success has been the result of a Playbook that includes:

COMMUNICATION

- Regularly scheduled meetings with personal consultant
- Educating Ohio through e-publications
- Quarterly reports showing trending of your claims/injury data

INNOVATION

- Integrated therapy programs including job-site therapy and transitional work
- Development of strong medical provider relationship

PREVENTION

- Injury prevention assessments
- Health and safety programs

Thank you for catching the Sheakley Difference. We value our long standing partnership and look forward to continuing to work with you for years to come. Feel free to contact your Client Relations Manager at 1-888-743-2559 if we can be of further assistance.

Sincerely,

John B. Dumas III
Vice President
