

SHEAKLEY UNICOMP IDENTIFIES SOLUTIONS TO BETTER MONITOR INJURY TRENDS

Sheakley UniComp, Inc. offers claims trending reports for employers to identify areas of concern within their workers' compensation program. These reports contain vital information in an effort to promote safety and allow for better management of workers' compensation costs. This, in depth, critical information is supplied through detailed graphics, summaries of injury types, body parts, medical costs per body part, treating provider types, and claim counts by month and day. Our trending reports can be obtained as needed but will be provided quarterly*.

Sheakley UniComp also provides you the ability to create customized reports to better monitor your injured workers' specific claims. Simply visit us at www.sheakley.com, click on the workers' comp MCO section and enter your password under the "Employer Claims Login" to gain access to our reporting options through the "Reporting" tab. You will then be able to customize this report to meet your needs.

Many of our clients already have access to Sheakley UniComp's WebView Login. If you would like the opportunity to have a personalized account created, please submit your request on letterhead and include your BWC policy number, name and title. We will contact you to initiate your access.

If you have any questions, please call 888.743.2559 and ask for your Client Relations Manager.

As always, thank you for your business. With Sheakley...It's Done!

Sheakley UniComp

*-These reports are typically provided on a quarterly basis to employers that have 2-3 claims during the trending period
