Sheakley UniComp
It's done.

Sheakley's success is the result of a playbook which includes:

Quality Service and Return to Work

- Proactive Medical Case Management: Our staff of trained professionals aggressively manages claims from the date of injury. Providing the right treatment at the right time helps promote a quicker recovery and a safe, effective return to work.
- Sheakley's Ohio BWC Case Management Programs is Nationally Accredited for Case Management (URAC).
- Injury Trend Reporting – Sheakley helps employers identify injury frequency & type. Our trained consultants will help coordinate work safety/injury prevention programs to limit or prevent future injuries. The best injury is the one that never happens!
- Regularly scheduled meetings with Client Relation Managers who will review, analyze, and assess the needs of your business and assist in building a relationship with experienced occupational medical providers in your area for optimal return to work results.
- Integrated Therapy Program – Restricted/Modified Duty along with On the Job Physical Therapy is one of the programs our MCO can help coordinate. This will allow your injured worker to recover while remaining at the job site, therefore, minimizing loss of productivity and maximizing safe work tasks.

Provider Network

- Statewide provider network to ensure complete coverage with over 22,000 BWC certified provider locations
- Average Network Savings of 10% below BWC fee schedule

Technology and Information

- Fully Integrated Document Management System - Sheakley's state of the art document management system allows us to immediately provide necessary documentation to TPAs, attorneys, physicians, and all parties to the claim.
- Instant E-Mail notification to the employer/TPA for new claims.
- Monthly "NEWS YOU CAN USE" - Informative articles your business can use to better manage Workers' Comp issues.
- "Web View" - Internet access to your account with claim status, notes, and medical payment information

With Sheakley...It's Done!
