UniComp Return to Work Strategies

Sheakley's success has been the result of optimal return to work strategies for your injured workers that include:

Communication

- Regularly scheduled meetings with personal consultant
- Quarterly reports showing trending of your claims/injury data

Innovation

- Integrated therapy programs
- Development of strong medical provider relationships

Prevention

- Injury prevention assessments
- Health and safety programs

Focusing on all of these services allows you to improve your workers' compensation program and ultimately reduce your workers' comp premiums.
