UniComp Testimonials

Client Testimonials

We have been pleased with the customer service and speed with which Sheakley UniComp has handled the medical management of our claims here at U.S. Castings Company. Since 2000, our employees have realized the benefit of proper and comprehensive managed care, not only with regard to having their medical fees paid, but also with regard to the courteous and helpful assistance offered by the Sheakley case managers.

William R. Lyons
Vice President
U.S. Castings Company

As we continue to grow, the potential for work-related injuries has increased as well. Sheakley UniComp's Trending Report helps us to focus and prioritize our efforts on correcting the most serious areas of concern first. It has proven to be much more efficient to address groups of similar injuries than to attempt to address each injury one-by-one. Since we have little precious time to waste, we must utilize the Trending Report to help maximum our time spent on investigating, correcting and preventing work-related injuries at EXAL.

Erik J. Huntley
HR Manager
EXAL Corporation
