## UniComp Testimonials

### Client Testimonials

#### Warren City School District

*In 2006 Warren City Schools made a decision to change to Sheakley UniComp to handle the District's Workers' Compensation needs. Some of the problems we were experiencing before we asked Sheakley to handle our Workers' Compensation were return to work issues, communication problems, training, and rising Workers' Compensation costs.*

*The most important change for us has been the decrease in Workers' Compensation costs. Due to all the hard work from everyone, we have seen a **decrease in our actual claim costs** from \$1.4 million in June 2006 to \$431k in December 2009. This **savings of \$969k** will allow us to invest in other programs.*

*Warren City Schools appreciates all the efforts from Sheakley UniComp to make a bad situation into one that is more manageable. We would highly recommend their services to any organization.*

#### Winegardner & Hammons, Inc.

*Having an experienced team of professionals involved in the management of our Workers' Compensation claims makes the process a lot easier. Sheakley offers suggestions on how to most effectively manage work related injuries and allows us to choose the option that works best for us and the injured worker. We appreciate the time taken to provide answers to our Workers' Compensation questions in a timely and efficient manner. Based upon our nearly 30 year business relationship and Sheakley's continued expert advice and assistance, Winegardner & Hammons, Inc. remains very satisfied with Sheakley's results and would not hesitate to recommend them to others. Thank you and please keep up the good work.*
