

SEE HOW WE COMPARE

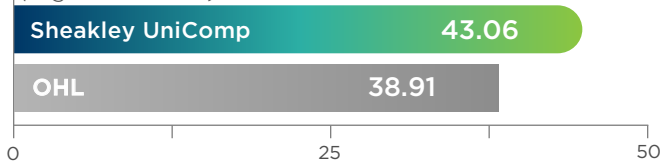

HEAR IT FROM OUR CLIENTS

Our reputation for reliability and excellence is a direct result of the quality of our staff and the people with whom we work each day. The BWC measures all MCOs to ensure they meet the minimum care requirements. Highlights from these measurements are shown below.

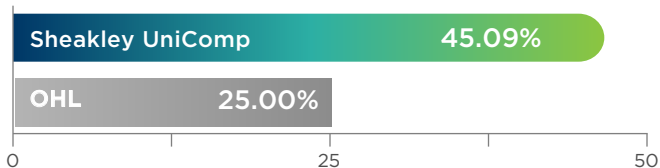

FIRST REPORT OF INJURY (FROI) TURNAROUND¹ (Lower = Better)

MEASURE OF DISABILITY (MoD) RETURN TO WORK SCORE FOR DAYS ABSENT¹ (Higher = Better)

% OF TOTAL EARNED FOR EXCEPTIONAL PERFORMANCE² (Higher = Better)

We go beyond the BWC standard MCO measurements and ask clients how we're doing directly to ensure we are delivering on our promise of quality service to each client.

97%

of our surveyed clients say they are highly satisfied with Sheakley UniComp and would confidently recommend our services to other businesses.

100%

of our surveyed clients agreed that the information we provided was complete, easy to understand, and highly informative.

100%

of our surveyed clients said their Sheakley UniComp representative was professional, organized, and friendly.
